May is Foster Care Awareness month, which is a month dedicated to raising awareness for all the children and youth in foster care. It is a time to honor foster families, who sacrifice daily to meet the needs of children and youth in foster care. It is also a time to recognize our social service workers, volunteers, donors, and other members of our community, who give resources to help meet the needs of foster children. It takes a village to wrap around, embrace, encourage, and empower foster families. Let's be the village for the foster families in our community!

On April 30th, PS I Love You hosted our first training seminar for foster parents. YAY! Training allows us to empower, equip, and encourage foster parents as they care for the foster children in their homes. God continues to open doors of opportunity to expand our services and programs for foster families. We are praying for God to provide the resources needed to purchase the building adjacent to us to house future trainings and expand our resource center.

I want to say Thank You to our financial partners, all who donate clothes, toys, equipment, for the many donation drives, and so many more for being a blessing to foster families. Not everyone is called to foster, but everyone can do something to make a difference in the life of a child in foster care! The part you play is vitaly important to the success of this ministry. We couldn't do what we do without our generous donors and supporters!

Enjoy the faces of those who are

included in this newsletter. When you get
the opportunity, thank a foster parent for
opening their heart and home to care for
children in foster care.

"PS I Love You feels like family,
helping us show these kids
what family should be."

"PS I Love You not only has provided clothes and
toys to us each season, but they provided a weighted
blanket to our foster daughter. Since she has had the
weighted blanket, she has been sleeping in her bed
all night. It's been such a huge success!"

"There isn't a price tag you can put on support.
It means everything! It's the difference between giving up
or persevering to do the next hard thing. There are times
when it feels like we are just trying to help kids survive.
Support keeps our eyes focused on the hope that
one day they will thrive."
